

SYLLABUS 2021 - 2022

CLASS - 8

SUBJECT : MATHEMATICS

| UNIT | CONTENTS |
|-------------------|---|
| 1. Numbers | 1.2 Rational Numbers 1.2.1 Rational Numbers on a Number Line 1.2.2 Decimal Representation of a Rational Number 1.2.3 Positive and Negative Rational Numbers 1.2.4 Equivalent Rational Numbers 1.2.5 Rational Numbers in Standard Form Example 1.2 1.2.6 Comparison of Rational Numbers Type 1 : Comparing Two Rational Numbers with Opposite Signs Type 2 : Comparing Two Rational Numbers Represented by Two Fractions with same Denominators Type 3 : Comparing Two Rational Numbers Represented by Two Fractions with Different Denominators Type 4 : Comparing Two Rational Numbers that are not in Standard Form 1.2.7 Rational Numbers between any Two given Rational Numbers Method of Averages: Method of Equivalent Rational Numbers |

| | |
|--|--|
| | <p>1.3 Basic Arithmetic Operations on Rational Numbers</p> <p>1.3.1 Addition Type 1 : Adding numbers that have same Denominators Type 2 : Adding Numbers that have different Denominators</p> <p>1.3.2 Additive Inverse</p> <p>1.3.3 Subtraction</p> <p>1.3.4 Multiplication</p> |
|--|--|

| | |
|--|---|
| | <p>1.3.5 Multiplicative Inverse</p> <p>1.3.6 Division</p> <p>1.4 Word Problems on the basic Operations</p> <p>1.5 Properties of Rational Numbers</p> <p>1.5.1 Closure Property / law for the Collection of Rational Numbers (i) Closure property for Addition (ii) Closure property for Multiplication</p> <p>1.5.2 Commutative property/law for the collection of rational numbers</p> <p>1.6 Introduction to Square Numbers</p> <p>1.6.1 Some more Special Properties of Square Numbers</p> <p>1.7.1 Square Root Through Prime Factorisation</p> <p>1.7.2 Finding the Square Root of a Number by Long Division Method</p> <p>1.7.5 Square Root of Product and Quotient of Numbers</p> <p>1.8.2 Cube Root</p> <p>1.8.3 Cube Root of a given Number by Prime Factorization</p> <p>1.9.4 Laws of Exponents Product law Quotient law Power law</p> <p>1.9.5 Standard Form and Scientific Notation</p> |
|--|---|

| | |
|------------------------|--|
| 2. Measurements | <ul style="list-style-type: none"> 2.2 Parts of a circle 2.2.2 Length of the Arc and Area of the Sector 2.2.3 Perimeter of a Sector 2.3 Combined Shapes. 2.3.1. Perimeter of Combined Shapes 2.3.2 Area of combined shapes 2.4.2 Nets for building Three Dimensional (3-D) shapes 2.4.3 Drawing 3-D Shape using Isometric dot Sheets and Grid Sheets |
|------------------------|--|

| | |
|----------------------------|---|
| 3. Algebra | <ul style="list-style-type: none"> 3.2 Multiplication of Algebraic Expressions 3.2.1 Multiplication of two or more Monomials 3.2.2 Multiplication of a Polynomial by a Monomial 3.2.3 Multiplication of Two Polynomials 3.5 Identities 3.6. Cubic Identities 3.7 Factorization Type 1-5 3.8 Linear Equations in One Variable, 3.8.1, 3.8.2, 3.8.3, 3.8.4 (i) 3.8.5 Word problems that involve Linear Equations 3.9 Graph 3.9.7 To Obtain a Straight Line 3.9.8 Line Parallel to Coordinate Axes 3.9.9 Scale in a Graph 3.10 Linear Graph, 3.10.1 - 3.10.2 |
| 4. Life Mathematics | <ul style="list-style-type: none"> 4.3 Profit, Loss, Discount, Overhead Expenses and GST 4.5 Compound Variation 4.6 Time and work |

| | |
|--------------------|---|
| 5. Geometry | 5.2.1 Congruent Triangles 5.2.2 Similar Triangles 5.3 The Pythagorean Theorem 5.4 Converse of Pythagoras Theorem 5.5 Point of Concurrency 5.6 Medians of a Triangle 5.6.1 Centroid of a Triangle 5.8.1 Circumcentre 5.9.1 In centre 5.10 Constructing a Quadrilateral 5.10.1 Constructing a Quadrilateral when 4 sides and a Diagonal are given 5.10.2 Constructing a Quadrilateral when 3 sides and two diagonal are given 5.10.3 Constructing a Quadrilateral when 4 sides and a angles are given |
|--------------------|---|

| | |
|----------------------------------|---|
| | <p>5.11.2 Constructing a Trapezium when its Three Sides and one angle are Given</p> <p>5.13 Construction of a Parallelogram</p> <p>5.13.1 Constructing a Parallelogram When its two Adjacent Sides and one Angle are Given</p> <p>5.13.2 Constructing a Parallelogram when its two Adjacent Sides and one Diagonal are Given</p> <p>5.14.1 Construction of a Rhombus when One Side and One Diagonal are Given</p> <p>5.14.3 Construction of a Rhombus when Two Diagonals are Given</p> <p>5.15 Construction of a Rectangle</p> <p>5.15.1 Construction of a Rectangle when its Length and Breadth are Given</p> <p>5.15.2 Construction of a Rectangle when side length and diagonal are given</p> <p>5.16 Construction of a Square</p> <p>5.16.1 Construction of a Square when its Side is Given</p> <p>5.16.2 Construction of a Square when its Diagonal is Given</p> |
| 6. Statistics | <p>6.2 Frequency Distribution Table</p> <p>6.2.2 Construction of Frequency Distribution table for Grouped Data</p> <p>6.2.2 (i) Construction of Grouped Frequency Distribution table- Continuous Table</p> <p>6.3.2 Method of Constructing a Pie Chart</p> <p>6.4 Graphical Representation of the Frequency Distribution for Grouped Data</p> <p>6.4.1 Histogram</p> <p>6.4.2 Frequency Polygon</p> |
| 7. Information Processing | <p>7.6 Highest Common Factor</p> <p>7.8 Shopping Comparison</p> |
